

Pricing Guide Based On Comfort Level

(The prices listed below are examples and can be modified to meet individual dental practice needs)

Comfort Level of Current Denture(s)	Suggested Pricing for Services Per Arch
10 9 8 7	\$1,600.00 <ul style="list-style-type: none"> • These are what we refer to as “Happy” denture(s) • Easy, slam dunk
6	\$1,700.00 <ul style="list-style-type: none"> • Extra \$100 for slightly more involved post-op
5	\$1,900.00 <ul style="list-style-type: none"> • Intermediate level of difficulty • Extra \$300 for 2 or more post-ops
4	\$2,200.00 <ul style="list-style-type: none"> • Borderline difficult • Extra \$600 for additional doctor time and post-ops
3 2 1	\$3,200.00 <ul style="list-style-type: none"> • Difficult, require maximum doctor time & lab expense • Plan to make a preliminary denture and a final denture to establish comfort and cosmetics • These are usually lower dentures with minimal bone • Unless patient is willing to get implants, they need to understand that they will either have to wear more adhesive or learn to wear a loose denture

We recommend starting with patients who rate their dentures 10-7 for your first ten Altadonics dentures.
